

Cord Management

Marissa Jimenez

Since I only have a MacBook Pro at home and no printer, I really do not have a cord issue. I decided to come up with a system where I can carry my devices back and forth from home to school, which I do on a daily basis when school is in session.

I used a bag with separate pouches to store the devices and their cords.

The bag folds up and is easy to carry.

MacBook Pro and iPad go into the slipcover.

and I'm ready to go!
